

Contech regional building expos postponed due to COVID-19

Following a directive from the Government of Quebec aimed to limit spread of the coronavirus, Groupe Contech has decided to postpone the upcoming Contech regional building expos to **a later date (TBA)**. This includes:

- **Montréal Building Expo: April 9, 2020**
- **Bas-St-Laurent Building Expo: April 23, 2020**

Postponing these events is the most responsible option and will help protect you, our employees, our partners, the business community, and the general public. Our team will continue to closely monitor the situation and recommendations from public health authorities.

We are committed to providing targeted content and solutions to meet your business challenges. Rest assured that this delay will in no way prevent us from bringing you this top-notch expo at a later date.

Pierre Marcoux
President
Groupe Contech
